

The PYP Exhibition

Problems, problems, problems! There are big problems, little problems, personal problems, problems that concern a lot of people, problems with obvious solutions and problems that seem to have no solution. The world is full of problems, all needing creative ideas.

In this exhibition you will get a chance to inquire into a real-life issue and identify possible problems that are associated with that issue and think of creative solutions to these problems.

The PYP Exhibition is a culminating assessment of the concepts and skills you have learned in the Primary Years Programme. It is a showcase of your IB Learner Profile, the PYP attitudes alongside your knowledge and skills. It is a chance for you to apply what you have learned in the classroom, and apply it to a real-world context. It is an opportunity for you to work with resources within and outside of school and investigate into issues and changes affecting the local community and its culture. It is a chance to explore different perspectives to issues in order to gain a better understanding. It is your chance to take meaningful action.

The Exhibition schedule will be made known to you. It is up to you and your group to set deadlines and make sure you keep to your plans. Mark your deadlines for completion of the stages on your team calendar. Discuss these deadlines with your teacher and/or your mentor.

This exhibition journal has been designed to enable you to follow a structured process leading up to your actual exhibition. The sheets included in this journal will help you to brainstorm ideas, organize your thoughts and materials as well as to think about how you might present your ideas in the end.

GOOD LUCK!!!
